Giorgi Shanidze

Tbilisi, Georgia
+995 555 506 835 shanidze.geo2004@gmail.com github.com/GeorgeShani linkedin.com/in/giorgi-shanidze

Technical Skills

Languages: TypeScript, JavaScript, C#, Python, SQL
Frontend: React, Next.js, Angular, Tailwind CSS
Backend: ASP.NET Core, Node.js, Express.js, NestJS
Cloud & Tools: Docker, Git, AWS (S3, RDS), Cloudflare
Databases: PostgreSQL, SQL Server, MongoDB
Mobile: React Native, Expo, Ionic Framework, Capacitor
AI: LangGraph, LangChain, Gemini, RAG, n8n
Concepts: REST API Design, Clean Architecture, Agile

Experience

Komokie **Sep. 2026 – Present**
Mobile Developer - Cool Card *Tbilisi, Georgia*

- Engineered the cross-platform mobile application for Cool Card, a nationwide discount platform by Komokie, utilizing React Native, Expo, and TypeScript to deliver a responsive, native-feeling user experience.
- Integrated Firebase push notifications and native device APIs for geolocation and authentication, while managing version control and end-to-end release pipelines for Google Play and the App Store.

Freelance **Feb. 2026 – Present**
Full-Stack Engineer *Tbilisi, Georgia*

- Shipped a multilingual medical portfolio and CMS for a practicing surgeon (kobasakhechidze.com) using Next.js, Payload CMS, PostgreSQL, and Cloudflare R2, with one-click AI localization across Georgian, English, Hebrew, and Arabic.
- Built role-based content workflows with draft/publish and live preview, and optimized delivery through static generation, lazy loading, and CDN-based assets.

HIGGS AI Talent Club **Nov. 2025 – Present**
AI Researcher *Tbilisi, Georgia*

- Selected for a competitive applied-AI program in machine learning, deep learning, and LLM engineering with PyTorch.
- Built an autonomous travel-planning agent on LangGraph and Gemini 2.5 Flash with human-in-the-loop approval and persistent memory.
- Completed GPT-focused training with the TSU Knowledge Transfer and Innovation Center on prompt engineering, LLM workflows, and n8n automation pipelines.

Sivrce AI **Jan. 2026 – Apr. 2026**
Front-End Developer *Tbilisi, Georgia*

- Built the core frontend of an AI-powered recommendation platform with React, Next.js, and Strapi, developing reusable component systems and integrating REST APIs behind personalized content delivery.

ROWIX **Dec. 2025 – Apr. 2026**
Junior Front-End Developer *Tbilisi, Georgia*

- Shipped production frontend features for the core web platform in React and TypeScript: reusable component systems, state management, and backend API integration.

Koober Coders **Jun. 2025 – Sep. 2025**
Full-Stack Developer *Tbilisi, Georgia*

- Designed RESTful APIs with C#, ASP.NET Core, and Entity Framework Core over SQL Server, and built the matching frontend features in Angular and TypeScript.

Projects

Dihestia | *React, TypeScript, Tailwind CSS, TanStack Query, Zustand* **Sep. 2025 – Present**

- Building the storefront for a luxury fashion e-commerce platform: collections, cart and favorites, multi-step checkout with embedded payments, and user accounts, implemented pixel-accurately from Figma and guarded by an automated end-to-end test suite.

Education

Tbilisi State University **Expected 2027**
Bachelor of Science, Computer Science *Tbilisi, Georgia*

IT Academy STEP Georgia **2023 – 2025**
Software Engineering *Tbilisi, Georgia*

Certifications & Languages

Certifications: Certiport IT Specialist – Software Development; HIGGS AI Agents Technical Course; NASA Space Apps 2025; Harvard CS50 Python
Affiliations: Associate Member, Georgian AI Association **Languages**: Georgian (Native), English, Russian
